

Flexible, Bespoke and Affordable Modular Workshop Solutions

As no two workspaces are the same we've developed the simple and innovative Premier Workshop modular system which allows you to select the exact kit and accessories you need to build the perfect solution. With dozens of combinations of work stations, drawers, cabinets and accessories you can be confident that whatever you need, we can create it for you.

How does it work?

1 Select the base cabinet units you require.

So you could take one double door cabinet

PWS815B

2 Add in the extras you need

Add a lowered panel, accessories and worktop + short support posts

PWS815B
PWSAP2S
PWSLP1
PWSWT10L

3 Choose accessories to complete your workspace

Add rear support posts, and finish off with a top cabinet (long support posts required)
